

Safety Tablet Holder

IDEC Safety Commander HT4P

The IDEC Safety Commander HT4P is an advanced, rugged tablet holder with integrated safety controls. It enables tablets to be used directly on the factory floor. Combining a secure tablet holder, a 3-position enabling switch, and an emergency stop button, the Safety Commander is suitable for a wide range of industrial, manufacturing, and logistics applications. The tablet holder can also be equipped with up to three additional control devices, such as illuminated pushbuttons or a multi-position selector switch.

optionally up to
3 additional control

Technical Specifications:

- Integrated 3-position safety enabling switch
- Integrated emergency stop button with LED indicator
- Tablet can be used in portrait or landscape orientation
- Suitable for both right- and left-handed users
- Up to 3 additional optional control devices
- For tablet sizes 10...13"
- Drop resistance from a height of 1.2 m
- Integrated USB connector for tablet charging
- LAN Ethernet connection integrated into the connecting connector
- Compliant with ISO 10218 safety standard
- Waterproof connector for 5, 10, 15 or 20 m connection cable
- Degree of protection IP54

Complete solution including mechanical pushbuttons and selector switches

LAN Ethernet integrated into the connecting connector
